PREPARING NOW TO TAKE REAL ESTATE

Following Passage of New Law,
Taxing Officials Make Plans to
Begin 4-Year Task.

FIRST MEETING TOMORROW.

County Assessor Priest will Attend
Conference With State Board to
Discuss Measure.

Township assessors and their deputies today began making preparations to assess real estate after holding off until the legislature, which ended last night, passed the new state tax law. It is not expected that very much assessing of real estate will be done until after the state tax board holds its sessions with the county assessors and it is determined what the state board regards as a fair cash value basis for land.

Earl Priest, county assessor, said today that he would attend the first of the series of conferences to be held by the state tax board in Indianapolis. Assessors from twenty-five counties in the central part of the state will be present.

The new law, which makes it incumbent on the taxing officials to assess all real estate and personal property at its true cash value, will double the assessed valuation of the taxable property of the state, in the opinion of the state tax board. If the board's prediction comes true, Rush county taxables will be valued this year at close to \$50,000,000 because the assessed valuation last year was \$24,000,000. This will operate to reduce the tax rate in each township by half of what it is this year. This will be generally the case because approximately the same revenue will be raised next year. This would make the estimated tax rate in Rushville \$2 next year.

One of the chief benefits resulting from the passage of the reform tax bill is that the complicated and involved system of tax laws in the state are now straightened out for the first time in more than twenty years. The new bill primarily is a codification of all the tax laws that have been enacted from time to time since the passage of the original tax law in 1891. The new measure provides for the repeal of all existing tax laws.

In addition to the codification, there are several new features in the bill that will tend to equalize the burden of taxation and will enable the state board to administer the law more effectively, it is said. The

FORMER SOLDIER GETS SUSPENDED SENTENCE

Gordon Noble Pleads Guilty to
Charge of Wife Desertion Before
Judge Sparks Today.

DISFRANCHISED FOR 3 YEARS

Gordon Noble, a discharged soldier who has been in the aviation service, was sentenced to a term of one to three years in the state reformatory by Judge Will M. Sparks in the circuit court this morning, and disfranchised for three years, when he pleaded guilty to a charge of wife desertion, but the reformatory sentence was suspended pending his good behavior.

Noble's wife, who lives in North Sexton street, filed an affidavit against him several days ago and a warrant for his arrest was sent to Henry county because Mrs. Noble believed that he was in Newcastle. Noble returned here, however, and was arrested by Sheriff Jones.

Noble was recently discharged at Camp Grant, Illinois, having been in the aviation section of the signal corps. He gave his age as 22 years.

TO REACH BREST THURSDAY

George Washington, Bearing Pres.
Wilson Is Nearing France

(By United Press.)

Aboard the United States Steamship George Washington, Mar. 11.—President Wilson, desiring to expedite the peace work as much as possible, sent several messages to Col. House today. They were understood to be in response to queries regarding the details of the negotiations. The president's cold has disappeared and he and Mrs. Wilson spent some time walking about the deck.

The George Washington is due to arrive in Brest Thursday afternoon, providing the weather continues good.

PRELIMINARY PACT MAY BE READY MAR. 20

Germany Will be Reduced to Military Status Lower Than Her Smallest Neighbor

ARMY LIMIT WILL BE 100,000

(By United Press.)

Paris, Mar. 11.—With the military terms adopted and rapid progress being made toward completion of other provisions, it was learned today that the preliminary peace treaty may be ready to present to Germany by March 20.

From the greatest nation in the world Germany will be reduced to a military status lower than that of the smallest neighbors. She will be impotent even before Switzerland.

The conscription system will be knocked out by a twelve year enlistment requirement for the army which, it is understood, will be reduced to 100,000 men. What army she has consequently will be purely provisional.

The danger of Germany having four or five million trained men within the next ten years, which would have been possible through conscription, will be abolished. All guns, munitions and equipment in excess of the amount necessary for the reduced army, will be surrendered. It is understood also that the notorious general staff will be wiped out.

SPACEY CASES DISMISSED

Charges of Passing Checks With no Funds in Bank Withdrawn

At the motion of the state the charges against Paul Spacey were dismissed in Squire Steeb's court this afternoon at 2 o'clock. Spacey was charged with passing a check on T. E. McAllister, for \$15 when he did not have the funds in the bank. A check for a similar amount was also cashed at Bliss and Cowing. Spacey pleaded guilty to the charges a few days ago and has been held in custody here awaiting action by the circuit court.

TRANSPORTS IN A RACE

(By United Press.)

New York, Mar. 11.—The transport Mount Vernon, carrying 5,780 soldiers and nurses, arrived today from Brest, winning by about eight hours her race with the Agamemnon, with 3,700 men, which will dock here this afternoon. The transport left France on March 4, about ten hours later than the Agamemnon and thirty-six hours later took the lead and maintained it to the rest of the trip.

Governor Praises Assembly

(By United Press.)

Indianapolis, Ind., Mar. 11.—Gov. Goodrich, in a statement today, highly praised the work of the general assembly which closed last night. "The record of the general assembly session is one that I believe will meet approval as the best of this state in recent years, which was accomplished through careful study," he said. "It is a record which for the constructive character of its work has not been equaled by a general assembly in this debate in the last one-half century." After referring to the various measures passed by the legislature, the governor said:

"This general assembly is to be commended not only for establishment of practically all laws enacted but for the things they refused to do. The governor pointed out that the cost of the assembly was less than any other session in the last twenty-one years."

Indianapolis, Mar. 11.—The legislative session ended early today after clocks had been stopped in both houses to permit finishing up of business after midnight when the constitution provides that the session must end.

An agreement was reached on the appropriation bills after many hours of debates. Under the agreement, Indiana and Purdue universities will get \$465,000 as an award by the supreme court.

The hardest fight in the conference committee was on that appropriation but opponents of the appropriation finally gave in. The governor's contingent fund was cut from \$1,000,000 to \$400,000 and the \$500,000 appropriation for the highway commission was eliminated. The bill increasing teachers salaries was also passed at the last moment after the proposed increases had been cut in half by the conference committee.

The specific appropriation bill was signed by Speaker Eschbach in the house at 4:53 o'clock, but on the official record of the house the bill will be noted as having been signed at 11:45 o'clock, Monday, March 10, 1919. The regular appropriation bill was signed much earlier.

The house adjournment came after hours of horseplay, during which Speaker Eschbach kept his seat and quieted the house members whenever they threatened to break into indecorum. A great part of the time following midnight was devoted to songs, speeches and other impromptu "celebrations." One of these included the reporting of the McCray resolution to instruct the attorney-general of Indiana to investigate the title to the canal, now used by the Indianapolis Water Company. This resolution was passed by the house by a chorus of "ayes."

Representative Mendenhall, republican floor leader of the house, made the motion which adjourned the house sine die. It was 5 o'clock really, but the house clock showed the same old 10:30 o'clock that had been showing there ever since the clock was stopped, hours before. Just before adjournment Speaker Eschbach took occasion to pay a tribute to the efficient and economical work of the house enrolling and engrossing force, and all other "help."

LAWS OF INTEREST HERE ARE PASSED

Measure to Reimburse National
Guardsmen For Uniforms Sanc-
tioned by Senate

GOVERNOR TO MAKE IT LAW

County Unit Highway Bill Passed
With Some Changes—Live Stock
Board Created

Many bills of interest to Rush county people passed the legislature before the session officially ended last midnight and all of them are expected to become laws with the governor's signature.

Among them were those creating a state live stock sanitary board, providing for the payment of road taxes in cash, for the remuneration of former state national guardsmen who paid for their uniforms when they enlisted, making the county a unit for building roads and fixing a road tax limit of two cents, and a new voters registration law.

The bill to reimburse Indiana guardsmen for uniforms which they themselves bought was introduced and passed largely through agitation which originated in this county. Before the 139th Field Artillery left Camp Shelby, Miss., for France, former Rush county boys in the outfit wrote back home, complaining about their monthly wages being used up by paying for Liberty bonds and installment on their uniforms.

T. M. Green, chairman of the county council of defense, began an investigation, and found that the men who joined old Company B here had bought their uniforms when they entered the service and that when they entered the federal service, new uniforms were issued and their old ones taken up. An effort to have them reimbursed by the federal government brought no results and finally a bill was introduced in the legislature to appropriate money to pay guardsmen who had bought their uniforms.

The bill, which was passed by the house earlier in the session, was acted upon favorably by the senate in an omnibus grouping eleven measures which were passed on one roll call by a vote of 40 to 0. House Bill 366 provides each guardsman who paid the state for his uniform when the guard was federalized shall receive \$13.31. It is explained that the federal government will reimburse the state.

The county unit highway bill, which local good roads advocates were especially anxious to have passed because they believe it will give the county opportunity to build trunk lines of improved highways, was changed somewhat from its original form by a conference committee from the house and senate, whose report was adopted.

The principal change made in conference was to permit an appeal to the state highway commission on any local project costing \$2,000 or more a mile. The minimum figure of cost on which a petition could be presented to the state commission was \$2,000 in the original bill, but it was changed to \$5,000 by the senate upon motion of Senator Nejdil, a contractor, and was amended to \$3,500 by the house. The conferees restored the figure to \$2,000 when it was found that the state highway commission bill provides for state supervision, upon petition from the locality affected, on roads costing \$2,000 or more a mile.

Other house amendments changed the bond limit for roads constructed under the bill from 4 per cent of the assessed valuation of taxable property in the county to 2 per cent; strike out provisions taking the supervision of dirt roads from the township trustees; change the number of signers on petition for county roads from fifty to 200, specifying that of these petitioners there

STOPS PAYMENT ON CHECK

Connersville Man Changes Mind,
When Jail Sentence Impends

Park Snider of Connersville, who was fined \$1 and costs by Mayor Irvin the first of this month for operating an automobile without a 1919 license, paid the fine by check and then stopped payment on the check when he got back home. The check was received back here yesterday and the mayor promptly sent Chief of Police Seward to Connersville with commitment papers to place Snider in jail to serve out the fine and costs. When Snider learned that he would have to go to jail if he did not pay the fine, he promptly withdrew his order stopping payment on the check, and the fine and costs were paid.

RUSH COUNTY MAY BE INVITED TO JOIN

Commissioners of Shelby and Decatur Discuss Erection of a Tuberculosis Hospital

AN OLD SUBJECT IS REVIVED

The proposal to invite Rush county to join with Decatur and Shelby counties in erecting and maintaining a tri-county tuberculosis hospital near St. Paul, was discussed at a meeting of the commissioners of Decatur and Shelby counties with the anti-tuberculosis society at Shelbyville yesterday. This project has been proposed before, but local people who expressed their opinion did not speak very favorably of it.

It was the suggestion coming from Shelbyville last summer which aroused interest in a hospital for Rush county and was indirectly responsible for a petition being circulated, asking the commissioners to buy the fair grounds as a hospital site. At that time physicians who discussed the proposal said that joint hospitals to be maintained and operated by two or more counties had not been very satisfactory in the past. On the other hand, it was pointed out by several persons, that a tri-county hospital would be a better method of caring for tubercular patients, than no method at all, and more economical than a hospital devoted only to tuberculosis cases in a county the size of Rush.

Members of Franchise League Going
To Convention Saturday.

Members of the Womens Franchise League of Rush county who plan to attend the sixth district convention at Shelbyville Saturday, are urged to report their names to Miss Henrietta Coleman of this city, county chairman, by Thursday. Each county is allowed one delegate for each ten members, and with 450 members in the county, it will be seen that there will be ample opportunity for all who want to attend, to go. The first session will be held at 11 a. m., and a very attractive program has been arranged.

G. O. P. ELECTS MONDELL

Washington, Mar. 11.—Rep. Frank Mondell of Newcastle, Wyoming, today was elected republican floor leader in the next congress. The vote for Mondell was 160 to 23. Fifty-three congressmen were absent. Previous to the nomination of Mondell, Rep. Mann, present floor leader, was chosen to lead again the republican forces in the house but declined the nomination.

SERMON FAILS TO ATTRACT THE MEN

Evangelist Miller Discusses "The
Man Who Blamed Every Old
Thing on to His Wife"

THE SUBJECT FOR TONIGHT

"High School Night" To be Observed
Tomorrow Night and Seats
Will be Reserved.

The second week of the revival services at the St. Paul's M. E. church started off last evening with a good meeting when Evangelist Miller preached a powerful sermon, as well as an interesting one, on "The Man who Blamed Every Old Thing on to his Wife".

"I see there are not so very many men here this evening," he began. "The reason is apparent."

The Rev. C. S. Black, who is leading the chorus choir, sang a beautiful solo during the song service which preceded the sermon. This evening, the evangelist will speak on "The Two Midnight Visitors and the Man on the Carpet".

Tomorrow evening will be "High School Night" at the revival when the two center sections of the church will be reserved for the high school students and the first fifteen minutes of the service will be given over to them to entertain as they please, with their school songs and yells.

Evangelist Miller read his text from Proverbs 28:13, "He that covereth his sins shall not prosper;" also Numbers 22-23, "Be sure your sins will find you out." He said in part:

"Sin is an awful destroyer; it is a great desolating force which injures and blights society in its most vital parts. Sin is the only thing in the universe which can permanently damage and eternally damn a man. Grief may sadden him, disappointment may worry him, adversity may bring him hardship and heartache, but the only thing that puts an indelible stain upon his character and damns his soul is that one thing called sin; all the suffering, the sadness, the broken homes, the blighted lives that surround us are caused by sin. It never fails to ultimately bring a curse to every life that will harbor it long enough.

"Were it not for sin this world would be a paradise, but sin brings wretchedness into the daily life of earth's toiling millions. It has been fully demonstrated that crime of every conceivable character can be traced directly to this one thing called sin, and the astonishing thing

SUES FOR A DIVORCE AND SUPPORT MONEY

Nina A. Miller, 801 North Sexton,
Files Action in Circuit Court
Against Silverton Miller.

ASKS CUSTODY OF 3 CHILDREN

Alleging that her husband, Silverton Miller, deserted her and their three children November 4, 1918, Mrs. Nina A. Miller 801 North Sexton street, today filed suit in the circuit court for a divorce, custody of the children and ten dollars a week for their support.

According to the complaint, they were married January 26, 1911 and lived together until November 4 last. Mrs. Miller alleges that her husband swore at her, struck at her frequently, was cross and ugly while at home and gambled often. On November 4 when he abandoned his family, according to the allegations, of the complaint, Miller told his wife that he would not live with her any longer.

The children are Howard, age 6; Horace 5, and Mary 2.

shall be not less than fifteen from each of a majority of townships in the county, and strike out Sec. 47 added by the senate, which provides that highways of gravel, slag, limestone, stone or crushed stone may be built without the approval of the state highway commission.

The bill creating a live stock sanitary board to take the place of the state board of veterinarians, in which local farmers have taken a deep interest, was finally passed by both branches of the legislature, but not until it was changed to the form, in one respect, in which it was introduced, providing that in case of a tie, the state veterinarian, appointed by the board, should have the deciding vote. The bill had been amended so that the governor would have the deciding vote.

The board is to consist of two live stock producers representing different live stock interests, and two veterinarians. One provision of the bill which local farmers especially favored, was stricken out. That was the one to do away with the stallion enrollment board, which is now located at Purdue, and vest its powers in the live stock sanitary board.

A new voters registration law to take the place of the old one which was repealed, was passed by the house yesterday, having previously been acted upon by the senate. There was much objection to the old bill because it caused such a heavy expense for counties of this size. The new law provides for meetings of the board in election years—a September session 59 days before election, and an October session 29 days previous to the election. The law also says the registration next year shall be deemed a permanent registration record.

house Saturday, the Beardsley senate bill providing that all road taxes shall be paid in cash, passed the house. Under the present law farmers have been allowed to "work out" their road taxes by hauling gravel on the roads. Farmers in the house protested but the bill finally passed by a vote of 52 to 31.

One of the measures to fail in the closing hours of the senate session yesterday was the Wright "bone dry bill," which was designed to strengthen the state prohibition law. Local church congregations took a vote on the Wright bill at Sunday's services and all favored unanimously a resolution providing for telegrams to be sent to Senator Dobyns of Greensburg, representing Hancock, Rush and Decatur counties, urging his support of the bill. Dobyns voted against a motion to suspend the rules and put the bill on immediate passage, which was lost and killed the bill.

Each New Day Brings a Better Maxwell

MOST anyone would think that after building 50,000 motor cars on one chassis plan that close on to perfection would be reached.

That is true in a large measure; but it happens to be only the point at which the Maxwell executives began.

They decided to keep on building Maxwells better and better as each new day went by.

The locomotive engineer drives his engine better every day. The banker who loans money does so with more and more judgment. The man at the forge—likewise.

This is the principle on which the Maxwell is built. It is not new in the business world. But it is sound.

And today, with 300,000 Maxwells built on this plan, anyone will readily understand—

Why a Maxwell runs on and on and never quits with age;

Why a Maxwell seldom turns in at a repair shop;

Why a Maxwell is so eagerly sought for in the second-hand market.

One of the last of more than 1000 improvements made since the first Maxwell was built is the appearance.

Let your eyes glance over this present day Maxwell and you'll think the price \$200 more than we ask for it.

school, munition plant workers returning to peace-time employment—all these are making a fresh start. All are hoping for business success and looking for chances for advancement.

It is a timely topic for newspaper discussion, to inquire why it is that some people attain large business success, while so many others secure only moderate attainment, or are buffeted from failure.

Many people say it is all luck. One man, they say, by no merit of his own, had fine opportunities thrust in his face. Someone opened a door in front of him. All he had to do was to walk in. Anyone could do it with the same chance.

In so far as people inherit money, or gain positions through family influence, that is true. Yet the great majority of successful men did not have wealthy parents. If they found opportunities, it was because they had the energy to force themselves into situations where opportunities open.

If a big business concern has an exceptional opportunity to offer, it does not snap up a cent to see which office boy shall have it. It does not look around among the fellows who are doing the work requiring the least intelligence. Nor does it select the man most popular in society, who can tell the best stories and play the best pool game.

But it does devote thoughtful scrutiny to the men of its force to see who has previously shown the most initiative and power to do things, though in a small way. The man who gets it has earned it. The fellow who says it is all luck, there-

by shows that he has no conception of the methods by which success is attained.

Military Punishment.

A civilian investigating the question of military punishments approaches the subject with a point of view utterly different from that of the military man. An infraction of discipline which seems to one a trifling matter appears to the other of great importance and deserving of severe punishment.

The soldier must learn to obey instinctively. He must subordinate his own thoughts and wishes and personality to the word of command. An army moves as a unit, and it cannot do so unless every individual composing it is absolutely subject to discipline.

If your son refuses to pare potatoes when you ask him, you can reprimand him and refuse to serve him with potatoes at dinner, and the matter practically ends there. If your employee will not pare potatoes at your command you have only to discharge him and hire some one else who will be more accommodating, and the matter ends there.

But the soldier's refusal to pare potatoes may be the little end of a wedge whose large end is the sacrifice of the lives of ten thousand men. The example of breach of discipline spreads rapidly. So the punishment must necessarily be far heavier in proportion than in civilian life.

It apparently will be Victory Liberty short term notes instead of bonds in the next April campaign. But

about the whole affair is to see men and women persist in harboring such a vile and corrupt thing in their life when they must know by observation what it will finally do for them. When a man commits a sin he inaugurates a curse he can never stop, but which will sweep on and in time or space involve other parties remote from the scene of action. So I say that a man's sins are more lasting than the memory of his crimes.

"Wrong doing causes men to drop their eyes. The reason some husbands and wives have hard work to look each other in the eyes is because of wrong doing. There are people who even go to church to ward off suspicion. They use it as a cloak to cover up their sin, but no man or woman ever fools God. 'Be sure your sins will find you out.' No man does a wrong thing but he must pay the penalty. No one hides from God until they do wrong, or fight the church unless they are crooked in their lives. Adam turned coward and flung the charge of complicity when God found him out, and blamed it on Eve. That's the way with so many men today, who have inherited their meanness from old Adam. They do wrong and then turn around and blame it on their wife. Even the small boy in school will get in trouble by doing something which merits punishment, and when found out he will even blame it on his sister. Then later when these boys are men and marry they always blame their cussedness on their wives."

The schedule of cottage prayer meetings for Wednesday morning from nine-thirty to ten o'clock is as follows:

Half of French
Army Lost.

1,500,000 killed in battle and an equal number seriously wounded is the enormous sacrifice of France in the world war. This constituted about half of the men she put into the field—a larger ratio of her 36,000,000 population than any other nation gave. America owes France a large debt of gratitude for this heroic outpouring of her life's blood that liberty might live, and also to the peasants of France who discovered a perfect remedy for stomach, liver and intestinal ailments, which is reported to have relieved incalculable suffering, prevented many surgical operations and saved thousands of lives. Geo. H. Mayr, a leading Chicago chemist, imports the ingredients and sells this remedy in America under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by Druggists Everywhere.—(Adv.)

PREPARING NOW TO
TAKE REAL ESTATE

Continued from Page One

provision that all property shall be listed at true cash value has been the law since 1891, but never has been enforced, members of the board say, for the reason that there never has been a board with sufficient power to enforce it.

While the classification of intangibles was not included in the bill as finally passed, it was pointed out that the decrease in levies that must result from the enforcement of the law will bring a large proportion of the intangibles out of hiding.

Another general provision in the law is that no taxing unit will raise any more taxes under the operation of the law than the total amount raised in the preceding year. An amendment to the bill provides that this tax limit shall not apply to taxing units having a rate of less than \$1.50. That is, any taxing unit may increase its rates up to \$1.50 even if this rate results in raising more taxes than the amount raised in the preceding year.

In explanation of the tax limit feature of the measure members of the state board said that persons or firms that are now under-assessed will have to pay more taxes under the law, but that on the other hand persons that now have a rather high assessment will pay less. In other words, they say, the effect of the law will be to place the burden of taxation where it belongs.

The power of the board to order a revaluation of the property in any taxing unit or a revaluation of any individual property, a provision in the original bill, has become a part of the law. However, it is provided that the expense of a revaluation will be borne by the taxing unit in which it occurs. Formerly the board could only equalize between counties, but had no right to interfere with the assessments within a county.

A feature of the bill that will tend to a more effective enforcement of the law is the raising of the salaries of township assessors from \$2.50 a day to \$4, and deputies from \$2 to \$3. The former law wages of assessors resulted in two resignations in this county, the assessors in Walker and Ripley townships resigning for that reason.

Young Man Comes Back

One of our young men sure has come to the front in short order and his friends are at a loss to understand his untiring energy and ability to work and get results, where only a few weeks before he seemed to be all run down and almost a nervous wreck.

Questioned by a curious friend as to the cause of the sudden change, he said: "I sure was in bad shape and no one knew it better than I did. It had my goat for fair. I was all in and my nerves shot to pieces with worry and sleepless nights. One day I overheard a customer telling what Phosphated Iron had done for him and I could not get a supply quick enough.

"That's the whole story, just Phosphated Iron. My poor tired overworked nerves just seemed to be Phosphated, the way they took hold of it, and say what a relief. I felt like a new man. Could sleep at night, and get up in the morning feeling like a two-year-old. Believe me, I had some appetite too, my weight increased rapidly, my face filled out and had the color of perfect health that only goes with pure blood, well fed with Iron.

"You can bet I am strong for Phosphated Iron. Everyone who tries it is a booster.

"Do you know even the doctors are prescribing it; trust them to get next to a good thing."

Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

GERMAN LEADER
TELLS POLICIES

Germany Will Convince World She is Changed Nation and Can be Dealt With as Such.

A TRUE REPRESENTATION

Hope That They Will be Bettered by War and Can Enter Society of Free Nations.

By FRANK J. TAYLOR
(U. P. Staff Correspondent.)

Berlin, Feb. 1. (By Mail.)—Germany will convince the world by the policy of her peace conference delegates as well as the governments policy that she is a changed nation, and can be dealt with as such, according to Philip Scheidemann, known German statesman.

"The delegation to the peace conference will be truly representative of the new Germany," says Scheidemann. "It will include none of the men who are responsible for the frightful cataclysm of the last four years, nor any who were otherwise contaminated by the practices of the old system.

"It is necessary for us to purge the atmosphere of our own house. Having suffered enough from the old system which brought us to the very edge of perdition, we hope that notwithstanding the heavy burdens which peace will lay upon our shoulders, we shall come out of this war as purified and better men and enter the society of free nations on a footing of equality.

"The foreign policy which we are resolved to pursue will be based exclusively upon pacifism and the League of Nations. We social democrats have always been champions of these ideals, during the long years when we were suppressed. We are glad finally to have a chance to put them into practice.

"We are today the only people in the world that has almost entirely demobilized and disbanded its standing army—the only country that has put the idea of reduction of armaments into practice. Though fully conscious that this may tempt many enemy politicians to do us violence, we confidently believe that such proof of the spirit of international brotherhood will convince the world that it faces a new and entirely changed Germany.

"We hope that the ideals of humanity may now retake their rightful place also beyond our frontiers.

We fail to understand why the blockade of starvation, enacted against the German people for the last four years, is still maintained and we learn with much gratification that America is endeavoring to have it lifted.

"Another thing near to our hearts is the return of prisoners of war. German troops formerly in Turkey are in a particularly pitiful case.

Strong bolshevik bands prevent them from returning to Germany overland, and are systematically robbing them and trying to get possession of their arms and ammunition for purposes of anarchy and destruction. We still hope the Entente will not permit these soldiers to return to the brutalities of the bolsheviks. Meanwhile I can say we are confident British port commanders will not let our men die of starvation."

MAY TUNNEL CHANNEL

London, Mar. 10.—Andrew Bonar Law, speaking in the house of commons this afternoon, announced that the government is considering the employment of discharged soldiers in the immediate construction of a tunnel under the English channel.

FEEL IT IN
THEIR BONES

Rheumatic sufferers are highly sensitive and easily affected by any change in the weather, "they feel it in their bones".

Rheumatism is the foe which steals away the joy of life.

"Neutrone Prescription 99", the different remedy, has banished winter terrors for all.

Each week more and more sufferers in all walks of life take "Neutrone Prescription 99" and every week adds more names to the long list of permanent cures. Go to your druggist today and get a 50c or \$1.00 bottle. It will repay you many times in health. Mail orders filled at \$1.00 size.

Nine Indiana men were reported as follows:

Died of disease—Private Earl Bronnenberg, Versailles; Private Glynn C. Haller, Indiana Harbor.

Wounded severely—Private Raymond P. Lorey, Jasper; Private Walter McDaniels, Charlottesville; Private Arthur P. O'Connell, Indianapolis.

Died of wounds—Sergt. Ward L. Goul, Pendleton.

Wounded, degree undetermined—Corp. Ivory Woodroof, Indianapolis; (previously reported killed in action).

Wounded slightly—Private Allan L. Blood, Junction; Private Ray Ward, Mishawaka.

The commander-in-chief, in the name of the president, has awarded the distinguished-service cross to the following Indiana Officer for an act of extraordinary heroism described after his name.

Corp. Chester V. Davis, Company

E, 6th Infantry, (A. S. No. 732421). For extraordinary heroism in action near Brioules, France, November 4, 1918.

Corp. Davis volunteered to carry a message to the battalion commander notifying him that our barrage was falling short. Crossing a valley swept by shell and machine gun fire, he swam the icy Meuse River and succeeded in delivering his message in time to avoid further casualties. Next of kin, Mrs. Rosa Davis, Tennyson, Ind.

BUY LIGHT ON STAMPS

Indianapolis, Ind., Mar. 11.—Warning was issued by postal authorities here today to business houses of the state not to purchase

supplies of envelopes bearing three-cent stamps of postal cards with two-cent stamps, as the pre-war basis of two cents for letters and one cent for postals will prevail after July 1. The old rates were re-established by the revenue bill passed by congress.

TROOPS REACH BOSTON

Boston, Mar. 11.—The battleship Nebraska from Brest, France, with 1,100 returning soldiers, arrived here Monday, the first warship transport to enter this port. Her passengers included Battery F, of the 54th artillery, and many casual companies, made up largely of New England men. With them were twelve Y. M. C. A. secretaries.

Janesville Walking Plow

What Is Walking-Plow Satisfaction?

"The handles must be just the right height and swing over far enough in the furrow to allow me to walk squarely between them.

"The plow must run reasonably well without too much draft either to the land or to the furrow.

"The hitch must be such as to allow the tugs to be reasonably long to give the plow plenty of freedom to find itself in the furrow at the depth I wish to plow.

All This You Get in Janesville S. & S.

"This freedom in the furrow allows the plow a certain amount of oscillation as it slices the furrow and takes the 'pinch' away from the cutting edge of the share. This lightens the draft and saves me time.

"The quality of the work must be regular and the furrow left in as uniform condition as the character of the soil will permit. This reduces the cost of working it down into a seed bed.

"The long, smooth, easy roll of the furrow over the perfect scouring share and moldboard, and the plow guided by a slight pressure of either hand now and then eases the day's labor for man and team and insures the best work."—A Personal Testimonial. It will do as well for you. Let us prove it.

Virginia Pearson at Mystic

Could you be happy if you were married to a millionaire you could not love? That is the big theme of "Love's Auction," which is being shown at the Mystic theatre tonight.

This new William Fox photoplay, featuring Virginia Pearson, is one of the best dramas shown here in many a day.

Miss Pearson is seen as a poor girl, struggling to earn a living, undecided as to a husband. The man she loves is poor, and the millionaire suitor can give her everything she wants and put her in society. She chooses the latter. Then begins the unfolding of one of the strongest human interest stories ever seen on the screen. The woman learns that her rich husband is a confirmed drunkard. She seeks the sympathy of her former lover. She is indiscreet. A Free Love leader attempts blackmail and is killed by the husband—who afterwards kills himself. Freedom and lasting happiness then come into the life of the wife. The picture is a fine one, and Miss Pearson's work in it is admirable.

Tomorrow Priscilla Dean is on the program in "She Hires a Husband."

Elsie Ferguson at Princess

Mary Hamilton, young, beautiful mistress of several millions of pounds and one of the most charming members of London society, disappeared mysteriously a few days ago. It was at first believed that she may have been abducted, but according to the statement of Sir Kenneth Graham, a suitor for Miss Hamilton's hand, the missing young woman is living the life of a gypsy in the New Forest.

This was the tenor of the items which were published in the big London newspapers at the time Miss Hamilton disappeared. No further particulars regarding the young woman could be obtained, but it was whispered that she was disgusted with society and had made up her mind to live the simple life. What followed is revealed in the new Artcraft photoplay, "Under the Greenwood Tree," starring Elsie Ferguson, which is being shown at the Princess theatre tonight.

Following Miss Hamilton's flight to New Forest, where she became a

gypsy and lived in a caravan, she had trouble with the gypsies themselves and later Jack Hutton, owner of the forest, gave orders that every gypsy on the place should be driven away. Miss Hamilton was ordered to quit her camping place, but when Jack sees her, he instantly falls in love with her. How this romance ends forms a captivating story which is charmingly revealed in the picture.

Miss Ferguson is capably supported in this picture, her leading man being Eugene O'Brien, a popular actor and for many years well known on the legitimate stage. The picture was adapted for the screen by Adrian GilSpear and directed by Emile Chautard.

Thursday and Friday Douglas Fairbanks in "Arizona" will be shown.

BUSINESS WOMEN ARE INTERESTED IN MEET

Rushville Likely to be Represented at Annual Convention of State Association Mar. 22.

BODY MAY BE FORMED HERE

Among the business women in this city, interest is centering about the second annual convention of the Woman's Association of Commerce of Indiana which will be held in Indianapolis at the Claypool hotel on March 22. The organization is a rapidly growing one with branches in a number of the towns of the state and it is probable, if interest is manifested in the movement, that a branch will be formed in this city. All women and girls who are interested may attend the meetings of the convention to be held in Indianapolis this month.

An interesting program has been planned, beginning at nine o'clock when the visiting delegates will be received by the committee on credentials. At ten o'clock, Mayor Charles Jewett of Indianapolis will speak. D. McWorkman of Indianapolis will also speak.

"Safe Investments for Women" will be the subject of an address by Merle Sidener at the afternoon session. There will be other practical talks during the afternoon meeting and the convention will close with a banquet in the evening at the Claypool hotel.

NOTICE

For the Improvement of Highway on The Line Dividing Washington and Center Townships and Union Township, Rush County, Indiana.

Notice is hereby given that a petition has been filed in my office for the concreting of a certain highway on the line dividing Washington and Center Townships on the north from Union Township on the south, where the petition is in words and figures, as follows, to-wit:—

State of Indiana, Rush County, ss: Before the Board of Commissioners of Rush County, Indiana.

Petition for Improvement of Highway on the Line Dividing Washington, Center and Union Townships in Rush County, Indiana.

The undersigned petitioners respectfully show to Your honorable board that this petition is signed by more than fifty freeholders and voters of Washington, Center and Union townships, Rush County, Indiana. That there is an existing highway separating Union Township on the south from Center and Washington townships on the north in said county, described as follows, to-wit: Beginning at the southeast corner of Section thirty-five (35) Township fifteen (15) north, Range ten (10) east on the west side of the Free Gravel Road known as the Gings and Raleigh Free Gravel Road and running thence west two (2) miles on the line separating Section 34 and 35 on the north, which are located in Washington Township, said county, from Sections 2 and 3, Township fourteen (14) north, Range ten (10) east in Union Township, said county, and thence extending west 60 rods more or less, where said road intersects with the Rushville and Dunreith pike, also with the Omer Thompson road, which 60 rods, more or less, divides a portion of the southeast quarter of Section thirty-three (33), Township fifteen (15) north, Range ten (10) east in Center Township, said county from a portion of the northeast quarter of Section four, Township fourteen (14) north, Range ten (10) east in Union Township, said county, to two (2) miles of said road is on the line dividing Washington Township on the north and Union Township on the south and the 60 rods divides Center Township on the north from Union Township on the south.

Said petitioners further represent that this petition is signed by at least 20 freeholders and voters of each of the three townships abutting on said road to-wit: Washington, Union and Center Township, Rush County, Indiana. And that over and along said road are two school hacks routes and one Rural Mail Route. That none of said townships contain any incorporated town or city and that said road does not run into or through any incorporated town or city.

Your petitioners ask that said road be improved with concrete and that the road be established as of the width it now is and that the traveled portion of said road be improved of a width of 16 feet. That said highway be graded and drained and that new culverts, drains and bridges be constructed so that said highway be a continuous Free Gravel Road throughout its entire length, which is two miles and 60 rods more or less.

Respectfully submitted, George H. Meyer, James W. Travis, A. C. Sharp, H. M. Nash, Jesse L. Morris, G. H. Lawson, George F. Billings, Donald Kiser, Ed Bingham, L. A. Johnson, C. E. Kiser, Frank L. Make This Test For Acid-Stomach

There are millions of people who suffer almost daily from the horrors of an acid-stomach—indigestion; sour, gassy, stomach; distressing heartburn; sickening food-repeating; painful bloating and that miserable, puffed up, lumpy feeling after eating. Many of these people have tried treatment after treatment; medicine after medicine; others have gone to doctors and stomach specialists and some to hospitals but in spite of all of their efforts they have obtained no lasting relief or a permanent cure.

These symptoms simply mean acid-stomach. If allowed to run on, they are very likely to cause a lot of serious trouble. Dyspepsia, rheumatism, gout, lumbago, sciatica, splitting headache, dizzy spells, nervousness, sleeplessness, mental depression, melancholia, a feeling of listlessness and all-goneness—these are just a few of the disorders which can be traced to acid-stomach. As a matter of fact, acid-stomach is often the direct cause of those almost incurable conditions known as catarrh of the stomach, intestinal ulcer, and cancer of the stomach. The lives of those who suffer from these serious troubles are nothing short of daily agony. Surely, then, you must see how important it is to go at once to the seat of the trouble—acid-stomach. You know what acid-

mouth does to the teeth—how it eats right through the hard enamel and causes them to decay. Think then of the havoc that must be caused by excess acid in the stomach!

Even if you are not suffering any immediate stomach pains, but are not feeling just as fit and fine as you should, you should by all means make this test: go to your drug store at once and get a big box of EATONIC. It is in the form of pleasant-tasting tablets—you eat them like a bit of candy. EATONIC is prepared for just one purpose—correcting acid-stomach by driving out the excess acid. EATONIC literally absorbs the excess acid. It brings instant relief from the pains of indigestion, heartburn, belching, sour, gassy stomach, bloating, etc. It makes the stomach pure, sweet, cool and comfortable, puts it in a normal, healthy condition, so that your food is properly digested. You need every bit of strength you can possibly get out of the food you eat—and EATONIC helps you get it.

Don't put this test off if you value your future good health and happiness. You run no chance at all because EATONIC is absolutely guaranteed to give you relief or your druggist will refund your money. The cost is a mere trifle.

FRANCE TO TRAIN THE JAPS FOR AIR SERVICE

17 Officers and 20 Frenchmen Arrive in Japan to Supervise The Reorganization

FULFILMENT OF WAR PROMISE

(By United Press.)

Tokio, Feb. 6. (By Mail).—Seventeen officers and 20 men of the French air forces, headed by Colonel Faure, have arrived in Japan to supervise the reorganization of the Japanese air service. The mission comes in fulfillment of a promise made by the French government to the Japanese war ministry during the war that such assistance would be given as soon as possible after the cessation of hostilities.

The French government is sending 100 airplanes to Japan to be used in the reorganization work. It is expected that the visiting aviators will be here three months. They have been given a very hearty reception by Japanese officials, and French flags are crossed with Rising Suns throughout Tokio in their honor.

The officers are all veterans of the air and each wears several decorations and ribbons indicating his service for France and for the allies. One of the members of the mission, Lieut. Georges Richardson, fought with the United States Marines last year, having been assigned to duty as a liaison officer. Commandant Lefevre, was downed a Zeppelin on its return from a bombing expedition to London, is a member. Some of the officers have seen service on all battle fronts.

35 PERSONS INJURED

Toledo, March 11.—Thirty-five persons were injured, none fatally, when a Toledo, Bowling Green & Southern Traction car, southbound, was in collision with a Clover Leaf passenger train at the crossing in Maumee, nine miles south of here yesterday. GUARD TO SPOIL GOOD KIDNAPPING? NEVER!

(By United Press.)

Berlin, Feb. 6. (By Mail).—It is not every day that you can have twenty men totting rifles and grenades as your personal bodyguard, and not have to pay anything for them. The United Press correspondent was offered such a bodyguard.

Early one morning a representative of the "Kommandantur" arrived at the hotel with orders to warn the English and American correspondents there that a plot had been discovered to kidnap them as a means of drawing Entente troops to Berlin.

The representative accepted a cup of "ersatz tea" and urged the acceptance of 20 good fighters, who would station themselves outside the door as a body guard. The offer was turned down.

"Well, then you'd better just go with them when they come to capture you," said the jovial uniformed representative of the commander. "Better not fight. Get the hotel to telephone us and we'll come and rescue you. Let us do the fighting—it's better."

Bright prospects of a good story before night—but they never materialized. The kidnapers did not come.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

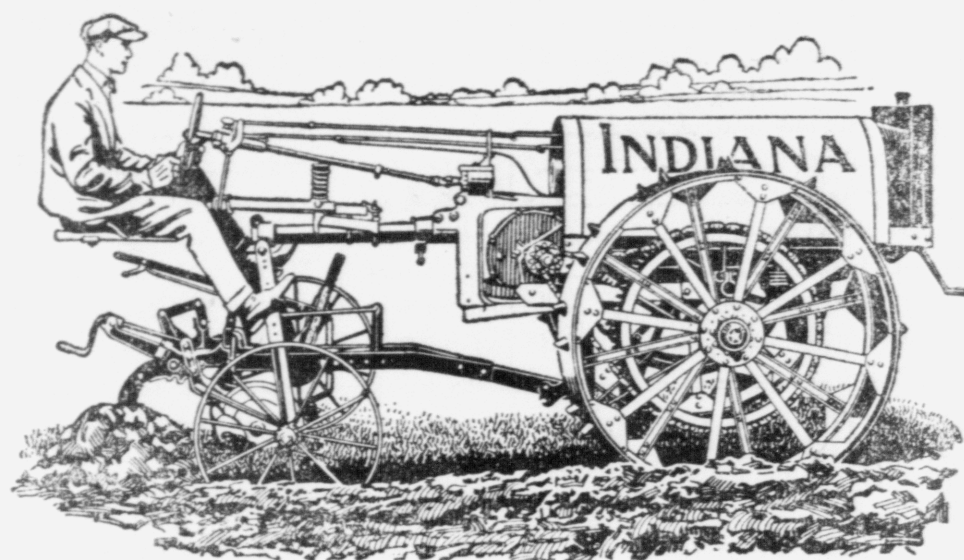

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

The World's Tractor

This one man single unit two wheeled Tractor weighs 1700 pounds and in ten hours will plow four acres. Disc twenty acres with a seven-foot tandem disc. Harrows forty-five to fifty acres with a 15-foot harrow. Plant twenty to twenty-five acres of corn, cultivate 20 acres with a two-row cultivator. Harvest ten acres with a corn binder. Cut twenty acres of wheat with an eight-foot binder. Mow fifteen acres with five-foot mower rake or pull a hay loader; and in addition can be used for belt work not requiring to exceed ten to twelve horse power.

This Tractor has been in use for four years and is not an experiment. It is superior in every detail of construction.

When the Indiana Silo Company went into the Tractor business four years ago, they found the trouble with Tractors was that they were always laid up for repairs. They have solved that part; they have so constructed it so as to reduce repair bill to a minimum and is so simple any boy can operate.

Tractor will be in Rushville, Saturday, February 15th, and will be more than pleased to demonstrate it as soon as weather permits.

REPORT OF GRAIN RESERVES ISSUED

Shows Considerably Less Corn on Farms This Year Than the Ten-Year Average.

WHEAT SHOWS AN INCREASE

Also Reveals Values for Unimproved Farm Land Have Increased About 8 Percent.

The spring report of grain reserves on farms in Indiana issued today by Geo. C. Bryant, Field Agent of the Bureau of Crop Estimates, United States Department of Agriculture, shows considerably less corn on farms this year than the 10-year average, and 27,795,000 bushels less than last year; while wheat, oats and barley each show an increase over last year and the 10-year average. The detail follows:

Corn reserves on Indiana farms March 1 amounted to 57,648,000 bushels, which is 34 percent of the 1918 crop and is compared with 85,443,000 bushels held at the same date last year. A short crop and much more feeding than usual is the cause for this low estimate. It is also estimated that 85 percent of the crop will be used in the counties where grown and that 83 percent of the crop was of merchantable quality. Reserves of corn on farms for the whole country amounts to 884,476,000 bushels compared with 1,292,905,000 bushels at the same time last year.

Wheat reserves on Indiana farms March 1 amounted to 4,927,000 bushels, which is 10 percent of the 1918 crop and is compared with 4,675,000 bushels held at the same date last year. It is estimated that 60 percent of the crop has been or will be shipped out of the counties where grown. For the whole country it is estimated that the wheat reserves on farms amounts to 129,258,000 bushels compared with 111,272,000 bushels last year.

Oats reserves on Indiana farms March 1 amounted to 29,768,000 bushels, which is 35 percent of the 1918 crop and is compared with 26,754,000 bushels held at the same date last year. It is estimated that 35 percent of the crop has been or will be shipped out of the counties where grown. For the whole country it is estimated that the oats reserves on farms amounts to 588,421,000 bush-

els compared with 595,195,000 bushels last year.

Barley reserves on Indiana farms March 1 amounted to 333,000 bushels which is 20 percent of the 1918 crop and is compared with 168,000 bushels held at the same date last year. It is estimated that 90 percent of the crop will be consumed in the counties where grown. For the whole country it is estimated that the barley on farms amounts to 81,889,000 bushels compared with 43,404,000 bushels last year.

It is also shown in the report that values for unimproved farm land have increased about 8 percent and for improved farm land about 5 percent.

PREPARING NOW TO TAKE REAL ESTATE

Following Passage of New Law,
Taxing Officials Make Plans to
Begin 4-Year Task.

FIRST MEETING TOMORROW.

County Assessor Priest will Attend
Conference With State Board to
Discuss Measure.

Township assessors and their deputies today began making preparations to assess real estate after holding off until the legislature, which ended last night, passed the new state tax law. It is not expected that very much assessing of real estate will be done until after the state tax board holds its sessions with the county assessors and it is determined what the state board regards as a fair cash value basis for land.

Earl Priest, county assessor, said today that he would attend the first of the series of conferences to be held by the state tax board in Indianapolis. Assessors from twenty-five counties in the central part of the state will be present.

The new law, which makes it incumbent on the taxing officials to assess all real estate and personal property at its true cash value, will double the assessed valuation of the taxable property of the state, in the opinion of the state tax board. If the board's prediction comes true, Rush county taxables will be valued this year at close to \$50,000,000 because the assessed valuation last year was \$24,000,000. This will operate to reduce the tax rate in each township by half of what it is this year. This will be generally the case because approximately the same revenue will be raised next year. This would make the estimated tax rate in Rushville \$2 next year.

One of the chief benefits resulting from the passage of the reform tax bill is that the complicated and involved system of tax laws in the state are now straightened out for the first time in more than twenty years. The new bill primarily is a codification of all the tax laws that have been enacted from time to time since the passage of the original tax law in 1891. The new measure provides for the repeal of all existing tax laws.

In addition to the codification, there are several new features in the bill that will tend to equalize the burden of taxation and will enable the state board to administer the law more effectively, it is said. The

Gordon Noble Pleads Guilty to
Charge of Wife Desertion Before
Judge Sparks Today.

DISFRANCHISED FOR 3 YEARS

Gordon Noble, a discharged soldier who has been in the aviation service, was sentenced to a term of one to three years in the state reformatory by Judge Will M. Sparks in the circuit court this morning, and disfranchised for three years, when he pleaded guilty to a charge of wife desertion, but the reformatory sentence was suspended pending his good behavior.

Noble's wife, who lives in North Sexton street, filed an affidavit against him several days ago and a warrant for his arrest was sent to Henry county because Mrs. Noble believed that he was in Newcastle. Noble returned here, however, and was arrested by Sheriff Jones.

Noble was recently discharged at Camp Grant, Illinois, having been in the aviation section of the signal corps. He gave his age as 22 years.

ARMY LIMIT WILL BE 100,000

(By United Press.)

Paris, Mar. 11.—With the military terms adopted and rapid progress being made toward completion of other provisions, it was learned today that the preliminary peace treaty may be ready to present to Germany by March 20.

From the greatest nation in the world Germany will be reduced to a military status lower than that of the smallest neighbors. She will be impotent even before Switzerland.

The conscription system will be knocked out by a twelve year enlistment requirement for the army which, it is understood, will be reduced to 100,000 men. What army she has consequently will be purely provisional.

The danger of Germany having four or five million trained men within the next ten years, which would have been possible through conscription, will be abolished. All guns, munitions and equipment in excess of the amount necessary for the reduced army, will be surrendered. It is understood also that the notorious general staff will be wiped out.

Governor Praises Assembly

(By United Press.)

Indianapolis, Ind., Mar. 11.—Gov. Goodrich, in a statement today, highly praised the work of the general assembly which closed last night. "The record of the general assembly session is one that I believe will meet approval as the best of this state in recent years, which was accomplished through careful study," he said. "It is a record which for the constructive character of its work has not been equaled by a general assembly in this debate in the last one-half century." After referring to the various measures passed by the legislature, the governor said:

"This general assembly is to be commended not only for establishment of practically all laws enacted but for the things they refused to do. The governor pointed out that the cost of the assembly was less than any other session in the last twenty-one years."

Indianapolis, Mar. 11.—The legislative session ended early today after clocks had been stopped in both houses to permit finishing up of business after midnight when the constitution provides that the session must end.

An agreement was reached on the appropriation bills after many hours of debates. Under the agreement, Indiana and Purdue universities will get \$465,000 as an award by the supreme court.

The hardest fight in the conference committee was on that appropriation bill on which the governor's contingent fund was cut from \$1,000,000 to \$400,000 and the \$500,000 appropriation for the highway commission was eliminated. The bill increasing teachers salaries was also passed at the last moment after the proposed increases had been cut in half by the conference committee.

The specific appropriation bill was signed by Speaker Eschbach in the house at 4:53 o'clock, but on the official record of the house the bill will be noted as having been signed at 11:45 o'clock, Monday, March 10, 1919. The regular appropriation bill was signed much earlier.

The house adjournment came after hours of horseplay, during which Speaker Eschbach kept his seat and quieted the house members whenever they threatened to break into indecorum. A great part of the time following midnight was devoted to songs, speeches and other impromptu "celebrations." One of these included the reporting of the McC. v. resolution to instruct the attorney-general of Indiana to investigate the title to the canal, now used by the Indianapolis Water Company. This resolution was passed by the house by a chorus of "ayes."

Representative Mendenhall, republican floor leader of the house, made the motion which adjourned the house sine die. It was 5 o'clock really, but the house clock showed the same old 10:30 o'clock that had been showing there ever since the clock was stopped, hours before. Just before adjournment Speaker Eschbach took occasion to pay a tribute to the efficient and economical work of the house enrolling and engrossing force, and all other "help."

At 2:04 real time, but still 11:40

Board Created

Many bills of interest to Rush county people passed the legislature before the session officially ended last midnight and all of them are expected to become laws with the governor's signature.

Among them were those creating a state live stock sanitary board, providing for the payment of road taxes in cash, for the remuneration of former state national guardmen who paid for their uniforms when they enlisted, making the county a unit for building roads and fixing a road tax limit of two cents, and a new voters registration law.

The bill to reimburse Indiana guardmen for uniforms which they themselves bought was introduced and passed largely through agitation which originated in this county. Before the 139th Field Artillery left Camp Shelby, Miss., for France, former Rush county boys in the outfit wrote back home, complaining about their monthly wages being used up by paying for Liberty bonds and installing them in their uniforms.

T. M. Green, chairman of the county council of defense, began an investigation, and found that the men who joined old Company B here had bought their uniforms when they entered the service and that when they entered the federal service, new uniforms were issued and their old ones taken up. An effort to have them reimbursed by the federal government brought no results and finally a bill was introduced in the legislature to appropriate money to pay guardmen who had bought their uniforms.

The bill, which was passed by the house earlier in the session, was acted upon favorably by the senate in an omnibus grouping eleven measures which were passed on one roll call by a vote of 40 to 0. House Bill 366 provides each guardman who paid the state for his uniform when the guard was federalized shall receive \$13.31. It is explained that the federal government will reimburse the state.

The county unit highway bill, which local good roads advocates were especially anxious to have passed because they believe it will give the county opportunity to build trunk lines of improved highways, was changed somewhat from its original form by a conference committee from the house and senate, whose report was adopted.

The principal change made in conference was to permit an appeal to the state highway commission for supervision of construction on any local project costing \$2,000 or more a mile. The minimum figure of cost on which a petition could be presented to the state commission was \$2,000 in the original bill, but it was changed to \$5,000 by the senate upon motion of Senator Nejd, a contractor, and was amended to \$3,500 by the house. The conferees restored the figure to \$2,000 when it was found that the state highway commission bill provides for state supervision; upon petition from the locality affected, on roads costing \$2,000 or more a mile.

Other house amendments changed the bond limit for roads constructed under the bill from 4 per cent of the assessed valuation of taxable property in the county to 2 per cent; strike out provisions taking the supervision of dirt roads from the township trustees; change the number of signers on petition for county roads from fifty to 200, specifying that of these petitioners there

STOPS PAYMENT ON CHECK

Connersville Man Changes Mind,
When Jail Sentence Impends

Park Snider of Connersville, who was fined \$1 and costs by Mayor Irvin the first of this month for operating an automobile without a 1919 license, paid the fine by check and then stopped payment on the check when he got back home. The check was received back here yesterday and the mayor promptly sent Chief of Police Seward to Connersville with commitment papers to place Snider in jail to serve out the fine and costs. When Snider learned that he would have to go to jail if he did not pay the fine, he promptly withdrew his order stopping payment on the check, and the fine and costs were paid.

RUSH COUNTY MAY BE INVITED TO JOIN

Commissioners of Shelby and Decatur Discuss Erection of a Tuberculosis Hospital

AN OLD SUBJECT IS REVIVED

The proposal to invite Rush county to join with Decatur and Shelby counties in erecting and maintaining a tri-county tuberculosis hospital near St. Paul, was discussed at a meeting of the commissioners of Decatur and Shelby counties with the anti-tuberculosis society at Shelbyville yesterday. This project has been proposed before, but local people who expressed their opinion did not speak very favorably of it.

It was the suggestion coming from Shelbyville last summer which aroused interest in a hospital for Rush county and was indirectly responsible for a petition being circulated, asking the commissioners to buy the fair grounds as a hospital site. At that time physicians who discussed the proposal said that joint hospitals to be maintained and operated by two or more counties had not been very satisfactory in the past. On the other hand, it was pointed out by several persons, that a tri-county hospital would be a better method of caring for tubercular patients, than no method at all, and more economical than a hospital devoted only to tuberculosis cases in a county the size of Rush.

SHOULD NOTIFY CHAIRMAN

Members of Franchise League Going
To Convention Saturday.

Members of the Women's Franchise League of Rush county who plan to attend the sixth district convention at Shelbyville Saturday, are urged to report their names to Miss Henrietta Coleman of this city, county chairman, by Thursday. Each county is allowed one delegate for each ten members, and with 450 members in the county, it will be seen that there will be ample opportunity for all who want to attend, to go. The first session will be held at 11 a. m., and a very attractive program has been arranged.

G. O. P. ELECTS MONDELL

Washington, Mar. 11.—Rep. Frank Mondell of Newcastle, Wyoming, today was elected republican floor leader in the next congress. The vote for Mondell was 160 to 23. Fifty-three congressmen were absent. Previous to the nomination of Mondell, Rep. Mann, present floor leader, was chosen to lead again the republican forces in the house but declined the nomination.

SERMON FAILS TO ATTRACT THE MEN

Evangelist Miller Discusses "The
Man Who Blamed Every Old
Thing on to His Wife"

THE SUBJECT FOR TONIGHT

"High School Night" To be Observed
Tomorrow Night and Seats
Will be Reserved.

The second week of the revival services at the St. Paul's M. E. church started off last evening with a good meeting when Evangelist Miller preached a powerful sermon, as well as an interesting one, on "The Man who Blamed Every Old Thing on to his Wife."

"I see there are not so very many men here this evening," he began. "The reason is apparent."

The Rev. C. S. Black, who is leading the chorus choir, sang a beautiful solo during the song service which preceded the sermon. This evening, the evangelist will speak on "The Two Midnight Visitors and the Man on the Carpet."

Tomorrow evening will be "High School Night" at the revival when the two center sections of the church will be reserved for the high school students and the first fifteen minutes of the service will be given over to them to entertain as they please, with their school songs and yells.

Evangelist Miller read his text from Proverbs 28:13. "He that covereth his sins shall not prosper;" also Numbers 22-23, "Be sure your sins will find you out." He said in part:

"Sin is an awful destroyer; it is a great desolating force which injures and blights society in its most vital parts. Sin is the only thing in the universe which can permanently damage and eternally damn a man. Grief may sadden him, disappointment may worry him, adversity may bring him hardship and heartache, but the only thing that puts an indelible stain upon his character and damns his soul is that one thing called sin; all the suffering, the sadness, the broken homes, the blighted lives that surround us are caused by sin. It never fails to ultimately bring a curse to every life that will harbor it long enough."

"Were it not for sin this world would be a paradise, but sin brings wretchedness into the daily life of earth's toiling millions. It has been fully demonstrated that crime of every conceivable character can be traced directly to this one thing called sin, and the astonishing thing

SUES FOR A DIVORCE AND SUPPORT MONEY

Nina A. Miller, 801 North Sexton,
Files Action in Circuit Court
Against Silverton Miller.

ASKS CUSTODY OF 3 CHILDREN

Alleging that her husband, Silverton Miller, deserted her and their three children November 4, 1918, Mrs. Nina A. Miller 801 North Sexton street, today filed suit in the circuit court for a divorce, custody of the children and ten dollars a week for their support.

According to the complaint, they were married January 26, 1911 and lived together until November 4 last. Mrs. Miller alleges that her husband swore at her, struck at her frequently, was cross and ugly while at home and gambled often. On November 4 when he abandoned his family, according to the allegations, of the complaint, Miller told his wife that he would not live with her any longer.

The children are Howard, age 6; Horace 5, and Mary 2.

shall be not less than fifteen from each of a majority of townships in the county, and strike out Sec. 47 added by the senate, which provides that highways of gravel, slag, limestone, stone or crushed stone may be built without the approval of the state highway commission.

The bill creating a live stock sanitary board to take the place of the state board of veterinarians, in which local farmers have taken a deep interest, was finally passed by both branches of the legislature, but not until it was changed to the form, in one respect, in which it was introduced, providing that in case of a tie, the state veterinarian, appointed by the board, should have the deciding vote. The bill had been amended so that the governor would have the deciding vote.

The board is to consist of two live stock producers representing different live stock interests, and two veterinarians. One provision of the bill which local farmers especially favored, was stricken out. That was the one to do away with the stallion enrollment board, which is now located at Purdue, and vest its powers in the live stock sanitary board.

A new voters registration law to take the place of the old one which was repealed, was passed by the house yesterday, having previously been acted upon by the senate. There was much objection to the old bill because it caused such a heavy expense for counties of this size. The new law provides for meetings of the board in election years—a September session 59 days before election, and an October session 29 days previous to the election. The law also says the registration next year shall be deemed a permanent registration record.

**Each New Day Brings
a Better Maxwell**

MOST anyone would think that after building 50,000 motor cars on one chassis plan that close on to perfection would be reached.

That is true in a large measure; but it happens to be only the point at which the Maxwell executives began.

They decided to keep on building Maxwells better and better as each new day went by.

The locomotive engineer drives his engine better every day. The banker who loans money does so with more and more judgment. The man at the forge—likewise.

This is the principle on which the Maxwell is built. It is not new in the business world. But it is sound.

And today, with 300,000 Maxwells built on this plan, anyone will readily understand—

Why a Maxwell runs on and on and never quits with age;

Why a Maxwell seldom turns in at a repair shop;

Why a Maxwell is so eagerly sought for in the second-hand market.

One of the last of more than 1000 improvements made since the first Maxwell was built is the appearance.

Let your eyes glance over this present day Maxwell and you'll think the price \$200 more than we ask for it.

Military Punishment.

A civilian investigating the question of military punishments approaches the subject with a point of view utterly different from that of the military man. An infraction of discipline which seems to one a trifling matter appears to the other of great importance and deserving of severe punishment.

The soldier must learn to obey instinctively. He must subordinate his own thoughts and wishes and personality to the word of command. An army moves as a unit, and it cannot do so unless every individual composing it is absolutely subject to discipline.

If your son refuses to pare potatoes when you ask him, you can reprimand him and refuse to serve him with potatoes at dinner, and the matter practically ends there. If your employe will not pare potatoes at your command you have only to discharge him and hire some one else who will be more accommodating, and the matter ends there.

But the soldier's refusal to pare potatoes may be the little end of a wedge whose large end is the sacrifice of the lives of ten thousand men. The example of breach of discipline spreads rapidly. So the punishment must necessarily be far heavier in proportion than in civilian life.

THEY FOUGHT SIDE BY SIDE

Nephews of Sheriff Jones Didn't Know it Until They Returned.

Two nephews of Sheriff Jones, themselves first cousins who had never seen one another, fought side by side at Chateau Thierry and never knew they were in almost stone's throw of one another until they returned to the United States, according to word received by the sheriff. Lieutenant Ben Jones of Cameron, Missouri and Sergeant Oren Jones of Flemingsburg, Kentucky, have enjoyed discussion of the strange circumstances since their return. Lieut. Jones is the son of Ben Jones and Sergt. Jones is the son of George Jones, both brothers of Sheriff Jones.

SEIZE DUTCH VESSELS

The Hague, Mar. 11—Newspapers stated today that Belgian authorities in Brussels and Antwerp have seized Dutch river vessels. Belgium laid claim to equal right with Holland to traffic on the Scheldt river. This indicated that the dispute resulted in Belgian authorities taking matters into their own hands.

A Friend Recommended Them

A person often does more good than he realizes when he tells a suffering friend how to get well. J. N. Tohill, clerk Lottie Hotel, Evansville, Ind., writes: "For weeks I suffered constantly with pains in the muscles of my thigh. I was treated by the doctor for rheumatism but found no relief. Upon recommendation of a friend, I tried Foley Kidney Pills and began to get relief almost immediately." Good for backache, rheumatic pains, stiff joints, sore muscles. F. B. Johnson. (Adv.)

REPAIR IT NOW

Never neglect needed repair work. If the roof starts to leak, the windows rattle, doors sag, walls crumble and ceilings crack, the house is giving sure symptoms that it needs attention.

It's work that must be done sooner or later. Prescribe a little of the right kind of repairs now and save a great deal of the trouble and expense bound to be caused if minor house ailments are allowed to develop into serious disorders.

If the old building isn't right, make it right. Just a little overhauling puts new life in old homes or business buildings.

Repairs, replacements, additions and alterations all require good building materials. Not only can we supply the right materials but we can also tell you the right way to use them. Let us be your repair doctor—see us at once.

about the whole affair is to see men and women persist in harboring such a vile and corrupt thing in their life when they must know by observation what it will finally do for them. When a man commits a sin he inaugurates a curse he can never stop, but which will sweep on and in time or space involve other parties remote from the scene of action. So I say that a man's sins are more lasting than the memory of his crimes.

"Wrong doing causes men to drop their eyes. The reason some husbands and wives have hard work to look each other in the eyes is because of wrong doing. There are people who even go to church to ward off suspicion. They use it as a cloak to cover up their sin, but no man or woman ever fools God. Be sure your sins will find you out." No man does a wrong thing but he must pay the penalty. No one hides from God until they do wrong, or fight the church unless they are crooked in their lives. Adam turned coward and flung the charge of complicity when God found him out, and blamed it on Eve. That's the way with so many men today, who have inherited their meanness from old Adam. They do wrong and then turn around and blame it on their wife. Even the small boy in school will get in trouble by doing something which merits punishment, and when found out he will even blame it on his sister. Then later when these boys are men and marry they always blame their cussedness on their wives."

The schedule of cottage prayer meetings for Wednesday morning from nine-thirty to ten o'clock is as follows:

Unit No. 1, Mrs. Bertha Tyler, 202 South Pearl; Unit No. 2, Mrs. W. W. Weakley, 322 North Harrison; Unit No. 3, Mrs. Ed Keaton, 514 North Harrison; Unit No. 4, Mrs. Harriett Abbott, 834 North Harrison; Unit No. 5, Mrs. Sherman Oneal, 407 North Perkins; Unit No. 6, Mrs. Ed Lyons, 117 Gosnell Avenue; Unit No. 7, Mrs. Lon Kennedy, 1209 North Perkins; Unit No. 8, Mrs. Gates Ketchum, 433 West Third; Unit No. 9, Mrs. Wm. Half of French Army Lost.

1,500,000 killed in battle and an equal number seriously wounded is the enormous sacrifice of France in the world war. This constituted about half of the men she put into the field—a larger ratio of her 36,000,000 population than any other nation gave. America owes France a large debt of gratitude for this heroic outpouring of her life's blood that liberty might live, and also to the peasants of France who discovered a perfect remedy for stomach, liver and intestinal ailments, which is reported to have relieved incalculable suffering, prevented many surgical operations and saved thousands of lives. Geo. H. Mayr, a leading Chicago chemist, imports the ingredients and sells this remedy in America under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by Druggists Everywhere.—(Adv.)

PREPARING NOW TO TAKE REAL ESTATE

Continued from Page One

provision that all property shall be listed at true cash value has been the law since 1891, but never has been enforced, members of the board say, for the reason that there never has been a board with sufficient power to enforce it.

While the classification of intangibles was not included in the bill as finally passed, it was pointed out that the decrease in levies that must result from the enforcement of the law will bring a large proportion of the intangibles out of hiding.

Another general provision in the law is that no taxing unit will raise any more taxes under the operation of the law than the total amount raised in the preceding year. An amendment to the bill provides that this tax limit shall not apply to taxing units having a rate of less than \$1.50. That is, any taxing unit may increase its rates up to \$1.50 even if this rate results in raising more taxes than the amount raised in the preceding year.

In explanation of the tax limit feature of the measure members of the state board said that persons or firms that are now under-assessed will have to pay more taxes under the law, but that on the other hand persons that now have a rather high assessment will pay less. In other words, they say, the effect of the law will be to place the burden of taxation where it belongs.

The power of the board to order a revaluation of the property in any taxing unit or a revaluation of any individual property, a provision in the original bill, has become a part of the law. However, it is provided that the expense of a revaluation will be borne by the taxing unit in which it occurs. Formerly the board could only equalize between counties, but had no right to interfere with the assessments within a county.

A feature of the bill that will tend to a more effective enforcement of the law is the raising of the salaries of township assessors from \$2.50 a day to \$4, and deputies from \$2 to \$3. The former law wages of assessors resulted in two resignations in this county, the assessors in Walker and Ripley townships resigning for that reason.

DECIDES TO BE A LIVE ONE

Young Man Comes Back

One of our young men sure has come to the front in short order and his friends are at a loss to understand his untiring energy and ability to work and get results, where only a few weeks before he seemed to be all run down and almost a nervous wreck.

Questioned by a curious friend as to the cause of the sudden change, he said: "I sure was in bad shape and no one knew it better than I did. It had my goal for fair. I was all in and my nerves shot to pieces with worry and sleepless nights. One day I overheard a customer telling what Phosphate Iron had done for him and I could not get a supply quick enough.

"That's the whole story, just Phosphate Iron. My poor tired overworked nerves just seemed to be Phosphate-hungry, the way they took hold of it and say what a relief. I felt like a new man. Could sleep at night, and get up in the morning feeling like a two-year-old. Believe me, I had some appetite too, my weight increased rapidly, my face filled out and had the color of perfect health that only goes with pure blood, well fed with Iron.

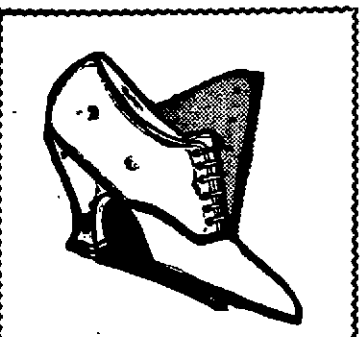

"You can bet I am strong for Phosphate Iron. Everyone who tries it is a booster.

"Do you know even the doctors are prescribing it; trust them to get next to a good thing."

Special Notice: To insure doctors and their patients getting the Genuine Phosphate Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

GERMAN LEADER TELLS POLICIES

Germany Will Convince World She is Changed Nation and Can Be Dealt With as Such.

A TRUE REPRESENTATION

Hope That They Will Be Bettered by War and Can Enter Society of Free Nations.

By FRANK J. TAYLOR
(U. P. Staff Correspondent.)

Berlin, Feb. 1. (By Mail).—Germany will convince the world by the policy of her peace conference delegates as well as the governments policy that she is a changed nation, and can be dealt with as such, according to Philip Scheidemann, known German statesman.

"The delegation to the peace conference will be truly representative of the new Germany," says Scheidemann. "It will include none of the men who are responsible for the frightful cataclysm of the last four years, nor any who were otherwise contaminated by the practices of the old system.

"It is necessary for us to purge the atmosphere of our own house. Having suffered enough from the old system which brought us to the very edge of perdition, we hope that notwithstanding the heavy burdens which peace will lay upon our shoulders, we shall come out of this war as purified and better men and enter the society of free nations on a footing of equality.

"The foreign policy which we are resolved to pursue will be based exclusively upon pacifism and the League of Nations. We social democrats have always been champions of these ideals, during the long years when we were suppressed. We are glad finally to have a chance to put them into practice.

"We are today the only people in the world, that has almost entirely demobilized and disbanded its standing army—the only country that has put the idea of reduction of armaments into practice. Though fully conscious that this may tempt many enemy politicians to do us violence, we confidently believe that such proof of the spirit of international brotherhood will convince the world that it faces a new and entirely changed Germany.

"We hope that the ideals of humanity may now retake their rightful place also beyond our frontiers. We fail to understand why the blockade of starvation, enacted against the German people for the last four years, is still maintained and we learn with much gratification that America is endeavoring to have it lifted.

"Another thing near to our hearts is the return of prisoners of war. German troops formerly in Turkey are in a particularly pitiful case.

224 MEN ARE LISTED AS CASUALS TODAY

Commanding General of the Expeditionary Forces Reports Nine Indiana Men.

ONE IS CITED FOR BRAVERY.

Washington, Mar. 11.—The following casualties are reported by the commanding general of the American Expeditionary Forces for today: Killed in action, 13; died from wounds, 23; died of accident and other causes, 51; wounded slightly, 56; missing in action, 5; total, 244.

Nine Indiana men were reported as follows:

Died of disease—Private Earl Bronnenberg, Versailles; Private Glynn C. Haller, Indiana Harbor.

Wounded severely—Private Raymond P. Lorey, Jasper; Private Walter McDaniels, Charlottesville; Private Arthur P. O'Connell, Indianapolis.

Died of wounds—Sergt. Ward L. Gould, Pendleton.

Wounded, degree undetermined—Corp. Ivory Woodroof, Indianapolis; (previously reported killed in action).

Wounded slightly—Private Allan L. Blood, Junction; Private Ray Ward, Mishawaka.

The commander-in-chief, in the name of the president, has awarded the distinguished-service cross to the following Indiana Officer for an act of extraordinary heroism described after his name.

Corp. Chester V. Davis, Company

E, 6th Infantry, (A. S. No. 732421). For extraordinary heroism in action near Brioules, France, November 4, 1918.

Corp. Davis volunteered to carry a message to the battalion commander notifying him that our barrage was falling short. Crossing a valley swept by shell and machine gun fire, he swam the icy Meuse River and succeeded in delivering his message in time to avoid further casualties. Next of kin, Mrs. Rosa Davis, Tennyson, Ind.

Janesville Walking Plow

What Is Walking-Plow Satisfaction?

"THE handles must be just the right height and swing over far enough in the furrow to allow me to walk squarely between them.

"The plow must run reasonably well without too much draft either to the land or to the furrow.

"The hitch must be such as to allow the tugs to be reasonably long to give the plow plenty of freedom to find itself in the furrow at the depth I wish to plow.

All This You Get in Janesville S. & S.

"This freedom in the furrow allows the plow a certain amount of oscillation as it slices the furrow and takes the 'pinch' away from the cutting edge of the share. This lightens the draft and saves me time.

"The quality of the work must be regular and the furrow left in as uniform condition as the character of the soil will permit. This reduces the cost of working it down into a seed bed.

"The long, smooth, easy roll of the furrow over the perfect scouring share and moldboard, and the plow guided by a slight pressure of either hand now and then eases the day's labor for man and team and insures the best work."—A Personal Testimonial. It will do as well for you. Let us prove it.

Virginia Pearson at Mystic

Could you be happy if you were married to a millionaire you could not love? That is the big theme of "Love's Auction," which is being shown at the Mystic theatre tonight.

This new William Fox photoplay, featuring Virginia Pearson, is one of the best dramas shown here in many a day.

Miss Pearson is seen as a poor girl, struggling to earn a living, undecided as to a husband. The man she loves is poor, and the millionaire suitor can give her everything she wants and put her in society. She chooses the latter. Then begins the unfolding of one of the strongest human interest stories ever seen on the screen. The woman learns that her rich husband is a confirmed drunkard. She seeks the sympathy of her former lover. She is indiscreet. A Free Love leader attempts blackmail and is killed by the husband—who afterwards kills himself. Freedom and lasting happiness then come into the life of the wife.

The picture is a fine one, and Miss Pearson's work in it is admirable.

Tomorrow Priscilla Dean is on the program in "She Ilures a Husband."

Elsie Ferguson at Princess

Mary Hamilton, young, beautiful mistress of several millions of pounds and one of the most charming members of London society, disappeared mysteriously a few days ago. It was at first believed that she may have been abducted, but according to the statement of Sir Kenneth Graham, a suitor for Miss Hamilton's hand, the missing young woman is living the life of a gypsy in the New Forest.

This was the tenor of the items which were published in the big London newspapers at the time Miss Hamilton disappeared. No further particulars regarding the young woman could be obtained, but it was whispered that she was disgusted with society and had made up her mind to live the simple life. What followed is revealed in the new Aircraft photoplay, "Under the Greenwood Tree," starring Elsie Ferguson, which is being shown at the Princess theatre tonight.

Following Miss Hamilton's flight to New Forest, where she became a

gypsy and lived in a caravan, she had trouble with the gypsies themselves and later Jack Hutton, owner of the forest, gave orders that every gypsy on the place should be driven away. Miss Hamilton was ordered to quit her camping place, but when Jack sees her, he instantly falls in love with her. How this romance ends forms a captivating story which is charmingly revealed in the picture.

Miss Ferguson is capably supported in this picture, her leading man being Eugene O'Brien, a popular actor and for many years well known on the legitimate stage. The picture was adapted for the screen by Adrian GilSpear and directed by Emile Chautard.

Thursday and Friday Douglas Fairbanks in "Arizona" will be shown.

BUSINESS WOMEN ARE INTERESTED IN MEET

Rushville Likely to be Represented at Annual Convention of State Association Mar. 22.

BODY MAY BE FORMED HERE

Among the business women in this city, interest is centering about the second annual convention of the Woman's Association of Commerce of Indiana which will be held in Indianapolis at the Claypool hotel on March 22. The organization is a rapidly growing one with branches in a number of the towns of the state and it is probable, if interest is manifested in the movement, that a branch will be formed in this city. All women and girls who are interested may attend the meetings of the convention to be held in Indianapolis this month.

An interesting program has been planned, beginning at nine o'clock when the visiting delegates will be received by the committee on credentials. At ten o'clock, Mayor Charles Jewett of Indianapolis will speak. D. McWorkman of Indianapolis will also speak.

"Safe Investments for Women" will be the subject of an address by Merle Sidener at the afternoon session. There will be other practical talks during the afternoon meeting and the convention will close with a banquet in the evening at the Claypool hotel.

NOTICE

For the Improvement of Highway on The Line Dividing Washington and Center Townships and Union Township, Rush County, Indiana.

Notice is hereby given that a petition has been filed in my office for the concreting of a certain highway on the line dividing Washington and Center Townships and Union Township on the south, which petition is in words and figures, as follows, to-wit:—

State of Indiana, Rush County, ss: Before me, J. B. Moore, Jr., Auditor of Rush County, Indiana.

Petition for Improvement of Highway on the Line Dividing Washington, Center and Union Townships in Rush County, Indiana.

The undersigned petitioners respectfully show to your honorable board that this petition is signed by more than fifty freeholders and voters of Washington, Center and Union townships, Rush County, Indiana. That there is an existing highway across the line between the south of Center and Washington townships on the north in said county, described as follows:—Beginning at the southeast corner of Section thirty-five (35) Township fifteen (15) north, Range ten (10) east on the west side of the Free Gravel Road known as the Gigs and Raleigh Free Gravel Road and running thence west two (2) miles on the line separating Section 34 and 35 on the north, which are located in Washington Township, said county, from Sections 2 and 3, Township fourteen (14) north, Range ten (10) east in Union Township, said county, and thence extending west 60 rods, more or less, where said road intersects with the Rushville and Dunreith pike, also with the Omer Thompson road, which 60 rods, more or less, divides a portion of the southeast quarter of section thirty-five (35) Township fifteen (15) north, Range ten (10) east in Center Township, said county from a portion of the northeast quarter of Section four, Township fourteen (14) north, Range ten (10) east in said Union Township, said county, (2) miles of said road is on the line dividing Washington Township on the north and Union Township on the south and the 60 rods divides Center Township on the north from Union Township on the south.

Said petitioners further represent that this petition is signed by at least 20 freeholders and voters of each of the three townships abutting on said road to-wit: Washington, Union and Center Townships, Rush County, Indiana. And that over and along said road are two school bus routes and one Rural Mail Route. That none of said townships contain any incorporated town or city and that said road is not run into or through any incorporated town or city.

Your petitioners ask that said road be improved with concrete and that the road be established as it now is and that the traveled portion of said road be improved of a width of 16 feet. That said highway be graded and drained and that new culverts, drains and bridges be constructed so that said highway be a continuous Free Gravel Road throughout its entire length, which is two miles and 60 rods more or less.

Respectfully submitted,

HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES 7 A DAY FOR 7 DAYS

A Vigorous, Healthy Body, Sparkling Eyes and Health-Colored Checks Come in Two Weeks, Says Discoverer of Bio-feren.

World's Grandest Health Builder
Costs Nothing Unless It Gives to Women the Buoyant Health They Long For.

It is safe to say that right here in this big city are tens of thousands of weak, nervous, run-down, depressed women who in two weeks' time could make themselves so healthy, so attractive and so teen-minded that they would compel the admiration of all their friends.

The vital health building elements that these despondent women lack are all plentifully supplied in Bio-feren.

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren right away.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lactin; Calcium Glycero-phosphate; Iron Phosphate; Magnesium Phosphate; Ert. Nux Vomica; Powdered Lecithin; Phenylalanine; Oleum Capicum; Kola.

Make This Test For Acid-Stomach

There are millions of people who suffer almost daily from the horrors of an acid-stomach—indigestion; sour, gassy, stomach; distressing heartburn; sickening food-repeating; painful bloating and that miserable, puffed up, lumpy feeling after eating. Many of these people have tried treatment after treatment; medicine after medicine; others have gone to doctors and stomach specialists and some to hospitals but in spite of all of their efforts they have obtained no lasting relief or a permanent cure.

These symptoms simply mean acid-stomach. If allowed to run on, they are very likely to cause a lot of serious trouble. Dyspepsia, rheumatism, gout, lumbago, sciatica, splitting headache, dizzy spells, nervousness, sleeplessness, mental depression, melancholia, a feeling of listlessness and all-goneness—these are just a few of the disorders which can be traced to acid-stomach. As a matter of fact, acid-stomach is often the direct cause of those almost incurable conditions known as catarrh of the stomach, intestinal ulcer, and cancer of the stomach. The lives of those who suffer from these serious troubles are nothing short of daily agony. Surely, then, you must see how important it is to go at once to the seat of the trouble—acid-stomach. You know what acid-

mouth does to the teeth—how it eats right through the hard enamel and causes them to decay. Think then of the havoc that must be caused by excess acid in the stomach!

Even if you are not suffering any immediate stomach pains, but are not feeling just as fit and fine as you should, you should by all means make this test; go to your drug store at once and get a big box of EATONIC. It is in the form of pleasant-tasting tablets—you eat them like a bit of candy. EATONIC is prepared for just one purpose—correcting acid-stomach by driving out the excess acid. EATONIC literally absorbs the excess acid. It brings instant relief from the pains of indigestion, heartburn, belching, sour, gassy stomach, bloating, etc. It makes the stomach pure, sweet, cool and comfortable, puts it in a normal, healthy condition, so that your food is properly digested. You need every bit of strength you can possibly get out of the food you eat—and EATONIC helps you get it.

FRANCE TO TRAIN THE JAPS FOR AIR SERVICE

17 Officers and 20 Frenchmen Arrive in Japan to Supervise The Reorganization

FULFILLMENT OF WAR PROMISE

(By United Press.)

Tokio, Feb. 6. (By Mail).—Seventeen officers and 20 men of the French air forces, headed by Colonel Faure, have arrived in Japan to supervise the reorganization of the Japanese air service. The mission comes in fulfillment of a promise made by the French government to the Japanese war ministry during the war that such assistance would be given as soon as possible after the cessation of hostilities.

The French government is sending 100 airplanes to Japan to be used in the reorganization work. It is expected that the visiting aviators will be here three months. They have been given a very hearty reception by Japanese officials, and French flags are crossed with Rising Suns throughout Tokio in their honor.

The officers are all veterans of the air and each wears several decorations and ribbons indicating his service for France and for the allies. One of the members of the mission, Lieut. Georges Richardson, fought with the United States Marines last year, having been assigned to duty as a liaison officer. Commandant Lefevre, was downed a Zeppelin on its return from a bombing expedition to London, is a member. Some of the officers have seen service on all battle fronts.

35 PERSONS INJURED

Toledo, March 11.—Thirty-five persons were injured, none fatally, when a Toledo, Bowling Green & Southern Traction car, southbound, was in collision with a Clover Leaf passenger train at the crossing in Maumee, nine miles south of here yesterday. The car, after hitting the train, rolled down a sixteen-foot embankment.

Cocoa and tobacco are the chief exported products for the Dominican republic.

GUARD TO SPOIL GOOD KIDNAPPING? NEVER!

(By United Press.)

Berlin, Feb. 6. (By Mail).—It is not every day that you can have twenty men totting rifles and grenades as your personal bodyguard, and not have to pay anything for them. The United Press correspondent was offered such a bodyguard.

Early one morning a representative of the "Kommandantur" arrived at the hotel with orders to warn the English and American correspondents there that a plot had been discovered to kidnap them as a means of drawing Entente troops to Berlin.

The representative accepted a cup of "ersatz tea" and urged the acceptance of 20 good fighters, who would station themselves outside the door as a body guard. The offer was turned down.

"Well, then you'd better just go with them when they come to capture you," said the jovial uniformed representative of the commander, "Better not fight. Get the hotel to telephone us and we'll come and rescue you. Let us do the fighting—it's better."

Bright prospects of a good story before night—but they never materialized. The kidnappers did not come.

MUSTEROLE—QUICK RELIEF! NO BLISTER!

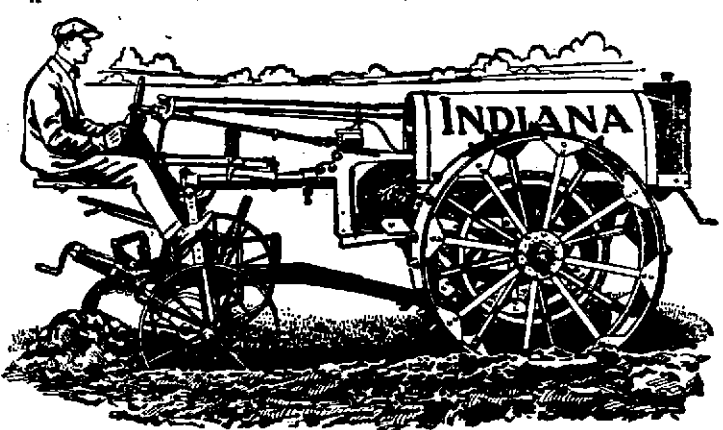

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size \$2.50.

The World's Tractor

This one man single unit two wheeled Tractor weighs 1700 pounds and in ten hours will plow four acres. Disc twenty acres with a seven-foot tandem disc. Harrows forty-five to fifty acres with a 15-foot harrow. Plant twenty to twenty-five acres of corn, cultivate 20 acres with a two-row cultivator. Harvest ten acres with a corn binder. Cut twenty acres of wheat with an eight-foot binder. Mow fifteen acres with five-foot mower rake or pull a hay loader; and in addition can be used for belt work not requiring to exceed ten to twelve horse power.

This Tractor has been in use for four years and is not an experiment. It is superior in every detail of construction.

When the Indiana Silo Company went into the Tractor business four years ago, they found the trouble with Tractors was that they were always laid up for repairs. They have solved that part; they have so constructed it so as to reduce repair bill to a minimum and is so simple any boy can operate.

Tractor will be in Rushville, Saturday, February 15th, and will be more than pleased to demonstrate it as soon as weather permits.

REPORT OF GRAIN RESERVES ISSUED

Shows Considerably Less Corn on Farms This Year Than the Ten-Year Average.

WHEAT SHOWS AN INCREASE

Also Reveals Values for Unimproved Farm Land Have Increased About 8 Percent.

The spring report of grain reserves on farms in Indiana issued today by Geo. C. Bryant, Field Agent of the Bureau of Crop Estimates, United States Department of Agriculture, shows considerably less corn on farms this year than the 10-year average, and 27,955,000 bushels less than last year; while wheat, oats and barley each show an increase over last year and the 10-year average. The detail follows:

Corn reserves on Indiana farms March 1 amounted to 57,648,000 bushels, which is 34 percent of the 1918 crop and is compared with 85,443,000 bushels held at the same date last year. A short crop and much more feeding than usual is the cause for this low estimate. It is also estimated that 85 percent of the crop will be used in the counties where grown and that 83 percent of the crop was of merchantable quality. Reserves of corn on farms for the whole country amounts to 884,476,000 bushels compared with 1,292,905,000 bushels at the same time last year.

Wheat reserves on Indiana farms March 1 amounted to 4,927,000 bushels, which is 10 percent of the 1918 crop and is compared with 4,675,000 bushels held at the same date last year. It is estimated that 60 percent of the crop has been or will be shipped out of the counties where grown. For the whole country it is estimated that the wheat reserves on farms amounts to 129,258,000 bushels compared with 111,272,000 bushels last year.

Oats reserves on Indiana farms March 1 amounted to 29,768,000 bushels, which is 35 percent of the 1918 crop and is compared with 26,754,000 bushels held at the same date last year. It is estimated that 35 percent of the crop has been or will be shipped out of the counties where grown. For the whole country it is estimated that the oats reserves on farms amounts to 588,421,000 bush-

els compared with 595,195,000 bushels last year.

Barley reserves on Indiana farms March 1 amounted to 333,000 bushels which is 20 percent of the 1918 crop and is compared with 168,000 bushels held at the same date last year. It is estimated that 90 percent of the crop will be consumed in the counties where grown. For the whole country it is estimated that the barley on farms amounts to 81,889,000 bushels compared with 43,404,000 bushels last year.

It is also shown in the report that values for unimproved farm land have increased about 8 percent and for improved farm land about 5 percent.
